LANGUAGE LAB

English language Lab has become highly valued in engineering colleges because it provides students as an organized e-learning environment that is reliable and successful. New technologies are implemented in laboratory-based classes as they accomplish the teacher's role in creating an attractive learning environment for the learner. In addition, it offers additional practice time and up-to-date exercises for the students. The English language lab is an extremely useful tool that facilitates language classes and interaction via computer-based activities and exercises to make the learning method very interesting. It gives a completely unique experience from the traditional system of learning and teaching by offering advanced features.

The college has a well-equipped Language Laboratory and audio-visual equipment to aid in imparting communication skills and soft skills. Special sections are available in the Language Laboratory to teach the basics of English to students from rural backgrounds, helping them to build their confidence. The Lab is equipped with a server of the minimum configuration of the PIV system which has 1 GB RAM/250 GB HDD, OS: Win 7 and with headphones. The client systems (60 Nos.) have a configuration of Core 2 Duo, 512 MB RAM/250 GB HDD, OS: Win7 and with headphones. The Language lab is also furnished with a Handycam, 46" TV, Collar mike, Cordless Mike, Audio Mixer, DVD recorder/player and LCD Projector with MP3/CD/DVD provision for Audio/Video facility.

The software packages namely e-class are available, which can be used by 60 users at a time for the development of LSRW skills (Listening, Speaking, Reading, and Writing). The software contains different modules like Grammar, Vocabulary, Word pronunciation and so on. Language lab aims at confidence-building among students for interactions and presentations in English by conducting group discussions, model presentations, and mock interviews. It also helps the students to prepare for competitive examinations such as GRE/TOEFL/IELTS etc.

The main objectives of the Language lab are

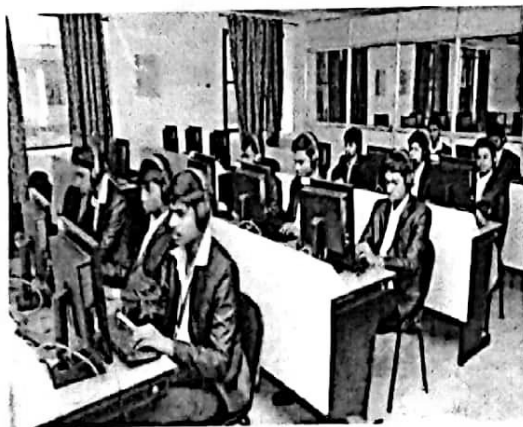

1. To enable learners to develop their communicative competence.
2. To facilitate them to hone their soft skills.
3. To help learners to develop their speaking skills in a real context.
4. To enable learners to listen to lectures and comprehend them.
5. To equip them with employability skills to enhance their prospect of placement.

AAA COLLEGE OF ENGINEERING AND TECHNOLOGY SIVAKASI PERSONAL COUNSELING

AAA College of Engineering and Technology endeavors to progress specific proficiencies of the students that may contribute for their academic and professional success. In this framework mentoring of students is immensely important. We have accepted the value of mentoring and the faculty members try to informally mentor the students. Teacher's help students interpret undergraduate programme guidelines and clarify different aspects of curriculum. They constantly encourage students to come forward with their ideas at all stages of development. Students are motivated to expand their skills. Faculty members are approachable and help in advancing the academic and professional goals through sharing guidance, experience and expertise. Students come from an increasingly diverse background, therefore teachers personally interact and try to help them to adapt to changes in a graceful manner. Students start identifying with the teacher. Mentoring supports students' advancement in pedagogical skill. They can handle stressful or difficult situation well. It also lowers stress level and builds confidence of the students.

For making personal counseling to the students each faculty is allotted with 15-20 students under them. Every week in the curriculum schedule itself one hour is allotted for counseling. Faculty discusses with his ward and identifies his problems. He motivated the students and make him to come out of his problem and concentrate on his studies.

SOFTSKILL DEVELOPMENT

NAME OF THE EVENT : SOFTSKILL DEVELOPMENT
RESOURCE PERSON : EVOLUTION CAREERS
VENUE : CONCERNED CLASS ROOMS
DEPARTMENT : ECE,EEE,CSE,CIVIL and MECH
PARTICIPANTS : I YEAR, II year, III and IV year

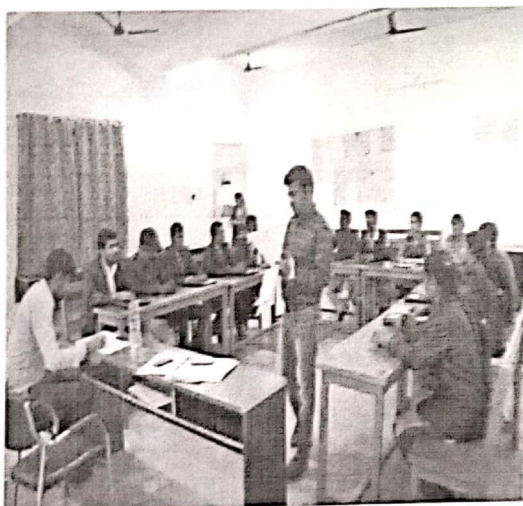

Our college proclaims to have a very good infrastructure to impart this training. We have a specified Language Labs to conduct dedicated Soft Skill Training which comprises Communication , Personal narratives, Grammar and Vocabulary for the first year students. In the first year our emphasis is to make them realize the significance of English Language in the overall world. They learn LSRW skills which is imperious in our curriculum. From second year onwards they acquire the process of Resume writing and Job Application, email writing, Group Discussion and Presentation Skills. Through Mock Presentations every student overcome their stage fear and peer pressure, and develop their personality characters to meet the demands of professional communication. From third year onwards students undergo rigorous mock interview and mock GD sessions for campus drive. We set up a professional ambience to give them a feel of the professional world. We organize special workshops to bridge the gap between industry and academics. Different company personnel deliver lectures on the necessity of Communication and Soft Skill in the industry. Students are enriched and their inherent talent is nurtured to a great extent.

Soft skill is quintessential and to meet the socio- economic transformations of the world, students need to have this skill along with academic proficiencies to survive in the industry. To enhance the soft skills among the students, the in house soft skill training is provided to the students in regular basis. The soft skill trainers are appointed through the Evolution career Pvt Ltd, Salem and the training is given for all the students by allotting

three hours per week in their regular academic schedule itself. It is organized by the placement cell of AAACET.

The soft skills training provided for the students are as described in the table.

YOGA AND MEDITATION

Yoga and Meditation practice for the first year students and Faculty members. All the I year students and faculty members from various departments have actively participated. Ultimate intention of conducting this program was to create awareness among the students about Yoga and meditation. Students were made to practice as per the steps and guide given by the Yoga master Mr.C.Muthu Kumar, Yoga Therapist, Consultant, Secretary of UYRF (United Yoga Research Foundation). Feedback from the I year students were appreciable and as per their request it is planned to continue until the final year. Some of the important things which are the benefits of Yoga practices and meditations are mentioned below

- Feel happier , healthier: be more productive, more creative and more relaxed
- Transform our life and relationships, and feel more fulfilled and satisfied
- Boost our energy levels and enjoy grater levels of physical well being
- Become more intuitive and able to attract new opportunities
- Embark on an exciting new journey of self-discovery
