IQAC - Action Taken Report

Action taken report on the decisions of the IQAC meeting held on **29th July 2023**. To implement the decisions of the above-mentioned meeting of the IQAC, the following actions were taken:

Plan of Action	Action taken
It was decided to conduct first year induction program in the first week of October.	The induction program for the batch 2023-2027 was successfully conducted in November 2023.
The chairperson insisted the IIC Coordinator to conduct more programs for creating innovative taught process amongst the students and for getting better state ranking from the IIC Council.	The IIC (Institution's Innovation Council) has planned a total of 34 activities for the academic year 2023-2024, categorized as follows: <ul style="list-style-type: none">• Self-Driven Activities: 9• MIC (Ministry of Education's Innovation Cell) Driven Calendar Activities: 6• IIC Driven Activities: 19 These activities are designed to foster innovation, entrepreneurship, and the overall development of students and faculty, aligning with national and institutional goals.
The chairperson suggested the committee members to organize National/International level conferences for enhancing the recent technological ideas.	For the academic year 2023-2024, it is planned to conduct two international-level conferences: <ol style="list-style-type: none">1. Environmental Development using Computer Science2. Application of Mathematics in Science and Technology These conferences aim to bring together experts and researchers to discuss emerging trends and innovations in these fields. They will provide a platform for knowledge sharing, collaboration, and advancement in both environmental

community.	advancing research and contributing to the academic community. The achievements highlight the strong research capabilities within the institution and the active involvement of faculty in high-impact research areas. These publications also underscore the effectiveness of the initiatives and technical activities undertaken during the year.
The IQAC Coordinator informed that IPR related workshop will be conducted during the month of December by an eminent academic/industrial expert.	A workshop on Intellectual Property Rights (IPR) and IP Management for startups was conducted on 13.05.2024. A total of 13 faculty members and 45 students attended the workshop. The session focused on educating participants about IP protection and management strategies for startups. It provided valuable insights into patenting, copyrights, and trademarks.
IQAC Coordinator requested all the heads of the department to send III/IV year students for industry based internship training during the semester holidays.	In alignment with the efforts to enhance practical learning, a total of 337 students successfully completed internships in reputed industries during the academic year 2023-24. These internships provided valuable hands-on experience and exposure to real-world industry practices. The collaboration with various industries through MoUs enabled students to gain insights into their respective fields, improving their skills and employability.
The Chairperson asked the head of the Civil department to submit the NBA Self-Assessment Report at the earliest so as to enable the start of new BE course during the next academic year.	The NBA Self-Assessment Report (SAR) for the Civil Engineering Department was successfully submitted in February 2024.
